PROJECTS

Secure Outsourcing of Image Editing based on Homomorphic Encryption

June 2020
🌐 https://github.com/chronarchitect/Homomorphic-Image-Encryption
We implement and improve upon an encryption scheme to safeguard image privacy, for cloud based storage and editing services.

Exploring Passenger Survival in a Plane Crash

June 2019
🌐 https://github.com/chronarchitect/KNX-Project
Goal of this project was predicting the survival of passengers after an accident. We use python and data science libraries to analyse the dataset provided, visualisation tools to find patterns and then use an classifier to make predictions on new data.
